| Extenuating Circumstances Policy | https://www.lshtm.ac.uk/sites/default/files/academic- manual-chapter-07.pdf |
| Programme Description | This programme covers the whole breadth of public health, encompassing high-, middle- and low-income countries. |
| | On successful completion of the programme, students will receive a Master's degree in Public Health (Health Promotion). |
| | This stream provides a sound understanding of the theoretical and empirical basis of health promotion, equipping students with the conceptual and practical skills to design and evaluate health promotion interventions and programmes. Health promotion |

| | draws on ideas from sociology, psychology, anthropology, education, epidemiology and other disciplines to understand how the health of populations can be maintained and strengthened. |

2. Programme Aims & Learning Outcomes

Educational aims of the programme

The aim of the programme – consistent with the LSHTM's mission to improve health and health equity worldwide – is to provide students with a sound understanding of the theoretical and empirical basis of health promotion, and to equip them with the conceptual and practical skills to design and evaluate health promotion policies and programmes. Health promotion draws on ideas from sociology, psychology, anthropology, education, epidemiology and other disciplines to understand how the health of populations can be maintained and strengthened.

Programme Learning Outcomes

By the end of the programme, students will be expected to achieve the following learning outcomes – drawing on material taught across different elements and assessed in a variety of ways.

- i) demonstrate ability to apply knowledge of core disciplines of public health to real health problems;
- ii) demonstrate knowledge and understanding of the principal theories, methods and interventions used in health promotion;
- iii) understand the development of the discipline of health promotion in the UK and internationally;
- iv) assess the appropriate use of population-wide versus targeted health promotion interventions;
- v) formulate health promotion policy and practice that is relevant to varying needs in diverse contexts;

- vi) be able to appraise and communicate research evidence;
- vii) apply the knowledge and analytical skills gained to inform health promotion policy-making, programme planning, implementation and evaluation.

Teaching and Learning Strategy

The programme is taught through a variety of) teaching methods including: lectures, small group seminars, practical, and groupwork with peers. All elements of the programme have specific learning objectives, with content designed to help students achieve these outcomes. Students are expected to learn through both directed and self-directed study.

Assessment Strategy

Students are assessed through (1) time-limited examinations, (2) an independent project report and (3) in individual module assessments (which may be an essay or other written assignment, short written tests, a groupwork report or presentation, or other method). Such tasks are designed to assess, via the most appropriate method, whether learning objectives have been met.

3. Programme Structure and features, modules, credit assignment and award requirements:

| Full-time Masters | Term 1 | Term 2 | Term 3 | Total Credits |
|---------------------|--------|--------|--------|---------------|
| Compulsory Modules | 5 | 1 | 1 | 80 |
| Recommended Modules | 1 | 3 | | 55 |
| Projects | | | 1 | 45 |
| Total credits | 60 | 60 | 60 | 180 |

Module information is correct at the time of publication, but minor amendments may be made subject to approval as detailed in <u>Chapter 3 of the LSHTM</u> <u>Academic Manual</u>. Optional (i.e. recommended non-compulsory) modules listed are indicative and may change from year to year. <u>https://www.lshtm.ac.uk/study/courses/changes-courses</u>

| Term | Slot | Module Code | Module Title | Module Type (compulsory or recommended) | Credits (CATS) |
|------|------|----------------|-------------------------------------|---|-------------------|
| 1 | AB1 | 1103 | Introduction to Health Economics | Recommended | 10 |
| 1 | AB1 | 1104 | Principles of Social Research | Compulsory | 10 |

| 1 | AB1 | 1107 | Health Services | Recommended | 10 |
|---|-----|------|---|-------------|----|
| 1 | AB1 | 1109 | Foundations for Health Promotion | Compulsory | 10 |
| 1 | AB1 | 1117 | Health Policy, Process & Power | Recommended | 10 |
| 1 | AB1 | 1121 | Basic Statistics for Public Health & Policy | Compulsory | 10 |
| 1 | AB1 | 1123 | Issues in Public Health | Compulsory | 10 |
| 1 | AB1 | 1125 | Environment, Health and Sustainable Development | Recommended | 10 |
| 1 | AB1 | 2001 | Basic Epidemiology | Compulsory | 10 |
| 2 | C1 | 1807 | Health Promotion Approaches and Methods | Compulsory | 15 |
| 2 | C2 | 1401 | History & Health | Recommended | 15 |
| 2 | C2 | 1402 | Conflict & Health | Recommended | 15 |
| 2 | C2 | 1700 | Qualitative Methodologies | Recommended | 15 |
| 2 | C2 | 2401 | Family Planning Programmes | Recommended | 15 |
| 2 | C2 | 2402 | Statistical Methods in Epidemiology | Recommended | 15 |
| 2 | C2 | 2417 | Design & Analysis of Epidemiological Studies | Recommended | 15 |
| 2 | C2 | 2436 | Population, Poverty & Environment | Recommended | 15 |
| 2 | D1 | 1127 | Evaluation of Public Health Recommende Interventions | | 15 |
| 2 | D1 | 1454 | Applied Communicable Disease Recommended Control | | 15 |
| 2 | D1 | 1802 | Medical Anthropology and Public Health | Recommended | 15 |
| 2 | D1 | 2407 | Epidemiology of Non- Communicable Diseases | Recommended | 15 |
| 2 | D1 | 2459 | Current Issues in Maternal & Perinatal Health | Recommended | 15 |
| 2 | D1 | 2472 | Social Epidemiology | Recommended | 15 |
| 2 | D2 | 1301 | Environmental Epidemiology | Recommended | 15 |
| 2 | D2 | 1503 | Globalisation & Health | Recommended | 15 |
| 2 | D2 | 1701 | Reviewing the Literature | Recommended | 15 |
| 2 | D2 | 1804 | Sexual Health | Recommended | 15 |
| 2 | D2 | 2437 | Epidemiology & Control of Communicable Diseases | Recommended | 15 |

| 2 | D2 | 3189 | Ethics, Public Health & Human Rights | Recommended | 15 |
|---|----|------|---|-------------|----|
| 3 | E | 1806 | Integrating Module: Health Promotion | Compulsory | 15 |

Contact Time

Student contact time refers to the tutor-mediated time allocated to teaching, provision of guidance and feedback to students. This time includes activities that take place in face-to-face contexts such as on-campus lectures, seminars, demonstrations, tutorials, supervised laboratory workshops, practical classes, project supervision and external fieldwork or visits, as well as where tutors are available for one-to-one discussions and interaction by email. Student contact time also includes tutor-mediated activities that take place in online environments, which may be synchronous (using real-time digital tools such as Zoom or Blackboard Collaborate Ultra) or asynchronous (using digital tools such as tutor-moderated discussion forums or blogs often delivered through the School's virtual learning environment, Moodle). Online contact time is always characterised by personalised tutor presence and input within a specified time-frame. Module contact time will be defined in the individual module specifications and provided to students at the start of their programme.

This definition is based on the one provided by the <u>Quality Assurance Agency for</u> <u>Higher Education (QAA) Explaining contact hours (2011) guidance document, page 4</u> <u>available here.</u> Student contact time, together with time allocated for independent study and assessment, determines the total student study hours for a module or programme. Although there are separate hours allocated for each of these activities, they should always be clearly linked together to support effective learning.

The London School of Hygiene and Tropical Medicine (LSHTM) defines high quality contact time as structured, focused, purposeful and interactive.

4: Entry Requirements

| Criteria | a for admissi | on | | | | |
|----------|---------------|----|--|------|---------|--|
| | | - | | | 1.1 | |

- The normal minimum entry requirements for the MSc Public Health are:
 - An upper second class honours degree (2:1) from a UK university, or an overseas qualification of an equivalent standard.

- Work experience: preference will be given to applicants with relevant work experience, this includes both paid and voluntary work, internships etc.
- **Additional requiremen**t: applicants for the MSc Public Health (all streams) will need to provide some evidence of ability in mathematics, post-16 year education. This could include:
 - "A" level or a higher school certificate,
 - a module within an undergraduate degree (such as quantitative methods, epidemiology or statistics)
 - statistics studied as part of a general research methods course.

Any student who does not meet the minimum academic entry requirement above but who has significant relevant professional experience may still be eligible for admission.

For further information, please see

https://www.lshtm.ac.uk/study/how-apply/applying-masters-degreelondon/you-apply-msc

English language entry requirements Band B

It is essential that all students have a good command of the English language to benefit from their studies at the LSHTM.

As part of the application process, applicants are required to demonstrate how they meet the LSHTM's minimum English language requirements. This is particularly important for applicants requiring a Student visa, as the UK Home Office dictates that every student from outside the UK and European Union (EU) must show evidence of a minimum level of English language ability (called CEFR1 B2 level), in order for a Student visa to be issued for entry to the UK.

Additionally, the LSHTM asks applicants to have minimum English language proficiency levels that are necessary for our academic programmes. These levels are higher than the CEFR B2 minimum level and also apply to EU applicants, although these will not normally require a Student visa.

The academic English language requirements for each of the LSHTM's programmes are categorised into one of three profiles A, B or C. For information on these three profiles, please refer to the LSHTM English

Language Requirement Policy:

https://www.lshtm.ac.uk/sites/default/files/english_language_requirements_po licy.pdf
